An Illustrated Guide on COVID Appropriate Behaviour
As you are aware, the COVID 19 pandemic has led to unprecedented and unanticipated challenges requiring collective action and support from all.

While all necessary measures to fight the spread of Novel Corona Virus (COVID 19) are being effectively led by the Central Government and State Governments, there is a need to reinforce the importance of preventive measures and practices in a sustained manner, to deal with the disease over the long run.

This guidebook outlines a comprehensive list of 15 preventive behavioural practices which are critical to winning this fight against the deadly virus. This fight can be won only when everyone knows their goal; everyone knows their role.
A set of 15 promises, we need to follow, as part of COVID Appropriate Behaviour

1. Greet without physical contact
2. Maintain physical distance (2 Gaj ki Doori (6 feet))
3. Wear reusable hand-made face-cover or mask, at all times
4. Avoid touching eyes, nose and mouth
5. Maintain respiratory hygiene
6. Wash hands frequently and thoroughly
7. Regularly clean and disinfect frequently touched surfaces
8. Do not spit in the open
9. Avoid unnecessary travel
10. Do not discriminate against anyone
11. Discourage crowd - Encourage Safety
12. Do not circulate social media posts which carry unverified or negative information
13. Seek information on COVID-19 from credible sources
14. Call National Toll-free helpline 1075 or State helpline numbers for any queries
15. Seek psychosocial support for any stress or anxiety
1. Greet without physical contact
Avoiding physical contact is a responsible behaviour as it prevents the spread of COVID-19 disease and other viruses.

Be responsible! Promote greeting without any form of physical contact.
2. Maintain Physical distance

2 Gaj ki Door (6 feet)
Follow distancing norms in all public places. Keep minimum distance of 2 Gaj (6 feet).
Especially, when you go out to shop for essential products to the vegetable or fruit market, dairy store, pharmacy, hospital, etc....
Also follow distancing norms when in a room / office with other people

2 Gaj ki Doori
(6 feet)

If the other person is infected, their physical contact may increase the risk of transmission
3. Wear reusable hand-made face-cover or mask, at all times
Why is it necessary to wear a hand-made face cover or mask?
A handmade face cover or mask limits the spread of any respiratory infection and protects the community at large.
How to wear a mask

1. Wear mask so nasal clip is over the nose. External pleats should face downwards.

2. Open mask pleats so it covers mouth and nose.

3. Tie upper strings first. Then lower strings. There should be no gap between face and mask.

4. Do not touch front of the mask.

5. Remove by first untying lower string and then upper string.

6. Replace mask after 8 hours or when damp/humid.

7. Dispose the mask in the recommended manner.

9. Do not reuse single use mask.
Do I need to wear a mask at all times?
Remember three key occasions one must definitely wear a face cover or mask.

1. When you undertake any essential travel or go to a public place
2. When you are in a room with other people
3. When you have any signs of cough, cold or flu
You can easily make a face cover at home to protect yourself

Really?
Yes, just log on to www.mohfw.gov.in and read the manual on how to make a face cover.
Always remember, wash hands with soap and water or use an alcohol based sanitizer before wearing a mask.
4. Avoid touching your eyes, nose or mouth
We tend to touch our face inadvertently… let’s be extra careful

But Why?
Hands touch many surfaces and can easily pick up germs and viruses.

Once contaminated, hands can transfer the virus to your eyes, nose or mouth.

From there, the virus can enter your body and can make you sick.

Your safety is in your own hands—quite literally!
5. Maintain respiratory hygiene
Cover your nose and mouth when you cough or sneeze with tissue or handkerchief.
Don’t forget...
Wash hands immediately after you cough or sneeze

Not carrying a tissue or handkerchief?
Cough or sneeze into your bent elbow
6. Wash hands frequently and thoroughly!
Your safety is in your hands – Literally!

Wash your hands frequently and thoroughly with soap and water
Meet our hand hygiene superheroes

Frequently hand-wash with me using water. I am there to protect you from any virus, including COVID-19

ALCOHOL-BASED HAND SANITIZER
You can use me if you don’t have soap and water facility.
7. Regularly clean and disinfect frequently touched surfaces
Practicing good environmental hygiene makes your surroundings safer.

How is that?
Because the infected droplets are likely to settle on surrounding surfaces.

You may use chemical disinfectants to clean the surfaces.

But wait... Don’t forget to wear gloves during disinfection.
8. Do not spit in the open
Every time you spit in a public place, you put your and everyone else’s life at risk.
Spitting in public places can increase the risk of COVID-19 spread.

This also includes spitting after consuming smokeless tobacco products.
Remember - Spitting in public places is also punishable by law
9. Avoid unnecessary travel
Travel only when it’s absolutely essential

And if you do step out of your house…

Wear your face-cover and follow distancing norms

2 Gaj ki Doorī (6 feet)
10. Do not discriminate - Against anyone!
Show compassion and support to persons affected with COVID-19 and their families
Remember – As people keep a check on any symptoms associated with COVID-19 and are willing to undergo testing, they also provide an opportunity to beat the disease!

Download the Aarogya Setu app to monitor your health
Boost the morale of doctors, nurses, police, sanitation workers who are on guard 24X7 to protect us.

It is time to show CARE
Compassion
Assurance
Respect
Encouragement
11. Discourage crowd - Encourage safety
Limit going to social gatherings and say no to crowded places.

Unnecessary travel to crowded places or large gatherings increases the risk of COVID-19 transmission!
Keep a reasonable distance of atleast 2 Gaj (6 feet) from others.

For important events which cannot be postponed, keep the number of guests to minimal.
Oh, have you tried connecting with your loved ones and colleagues virtually? Try it, it is much safer!
12. Do not circulate social media posts which carry unverified or negative information
13. Seek information on COVID-19 from credible sources
There is COVID-19 related information coming in from so many sources. Which one should I rely on?

The most credible source for COVID-19 information is Ministry of Health and Family Welfare’s website (www.mohfw.com). You will receive all updated information and facts related to COVID-19 here.
14. Call national toll free helpline numbers 1075 or State helpline numbers for any COVID-19 related queries
If you have any COVID-19 related queries or observe any COVID-19 related symptoms like fever, cough, or difficulty in breathing, call the national helpline number 1075 (toll free)
Do not hesitate to disclose your symptoms

The earlier you seek help, the faster you will beat the disease!
15. Seek psychosocial support in case of any distress or anxiety
Coping with any public emergency or outbreak can be a testing time for people and their families – both affected or unaffected.

Do not ignore or suppress any feelings of anxiety or distress.
Psychosocial support services are available at all times for you, to address any stress or distress related queries and concerns.

Call on national psychosocial toll-free helpline number 08046110007
Together, we will fight COVID-19!
